

### Department of Anaesthesiology

| S NO | NAME OF THE INVESTIGATOR            | TITLE   |
|------|-------------------------------------|---|
| 1    | Dr. Dhanuja Gampala                 | A comparative clinical study of intrathecal hyperbaric bupivacaine with nalbuphine and hyperbaric bupivacaine with butorphanol in lower abdominal and lower limb surgeries    |
| 2    | Dr. P Sabitha                       | Comparative study of intravenous dexmedetomidine versus intrathecal dexmedetomidine in spinal anesthesia with heavy bupivacaine   |
| 3    | Dr. Kethavath Haritha               | A comparative study between hyperbaric bupivacaine 0.5% and isobaric 2-chloroprocaine 1% in spinal anesthesia for outpatient surgeries  |
| 4    | Dr. Kondepudi Pallavi               | To compare the effect of intravenous 2% lignocaine versus 4% lignocaine nebulization in attenuating hemodynamic response to laryngoscopy and tracheal intubation              |
| 5    | Dr. A Atrivarada Sai Bhaskara Sarma | Effectiveness of supraclavicular brachial plexus block with ropivacaine alone versus ropivacaine with dexamethasone as adjuvant for perioperative analgesia                   |
| 6    | Dr. Emmadi Uday                     | To compare the effect of 0.25% bupivacaine vs. 0.375% ropivacaine in transversus abdominis plane block for postoperative analgesia in patients undergoing abdominal surgeries |
| 7    | Dr. Koppula Akash                   | A comparative study between I-gel and laryngeal mask airway classic in terms of ease of insertion and hemodynamic response  |
|      |                                     |   |
|      |                                     |   |
